Highlighted Projects

Twitch Rivals

2020 - 2021

Twitch Rivals is a tournament hosted by Twitch. I made a Minecraft gamemode for them in which streamers competed for a prize pool of \$100,000.

Read more about it at tabuu.nl/posts/240

TabuuCore

2017 - now

TabuuCore is a library I wrote to improve the speed and quality of my Spigot freelance work.

Read more about it at
github.com/Tabuu/TabuuCore

Lukkien Air

2019 - 2019

Though my connections at marketing company Lukkien I was invited to test their intake assignment for a 'senior Java developer' role.

Work Experience

Volker Wessels Telecom / Recognize

Cloud Data Integration Engineer
2021 - now

At Recognize our team makes cloud applications that integrate software and services for our clients.

Amazon / Twitch

Freelance Java Developer
2019 - 2020

Twitch contracted me to develop three of their \$100,000 'Twitch Rival: Minecraft' tournaments.

Songoda

Support Developer
2018 - 2019

At Songoda I maintained the codebase of their software, as well as providing direct support to clients.

JourneyCraft

Lead Java Developer
2017 - 2019

At JourneyCraft we made Spigot plugins to expand and enhance player experience.
